Meghan Brehon,

We look forward to your **poster presentation** at the CMOS Congress 2023 taking place at the Sheraton Newfoundland, St. John's, Newfoundland & Labrador, May 28 – June 1, 2023.

Please see below for the relevant details for your poster:

Me (according to tests):

- ISFJ-T
 - Input
 - Intellection
 - Individualization
 - Achiever
 - Discipline
- Strategic thinking
- Relationship building
- Executing

Goals:

1. Exercise 2x per week
2. Read 20 min per day
3. Find opportunities for networking and learning about the field of atmospheric physics
4. Establish a better method for research data management

Overall experience:

- Introspective thought can be difficult, but useful.
- Setting goals is an effective motivator for me (good to know).
